PTC forays into wind energy

MUMBAI, APRIL 3 /—/ Power trading solutions provider PTC India on Wednesday said that it had forayed into wind energy generation business by successfully commissioning its wind farm project in Maharashtra. It further said that it had acquired 11 per cent stake in Teesta Urja Ltd, which was presently developing hydroelectric project in Sikkim.

It has successfully ventured into wind energy generation business by commissioning six mw wind farm project on March 31, the company, a state initiated Public-Private Partnership venture, said in a filing to the BSE. The wind energy project, consisting of four Suzlon machines (1.5 mw) was located at Sinnar in Nashik, it said. (PTI)
