

PTC India: Power trading solutions provider PTC India announced operationalisation of 128.7 MW inter-state wind power project under the MNRE (Ministry of New and Renewable energy) wind scheme (tranche-I) of 1,050 MW.

Third project under maiden wind auction begins power supply

The tariff of Rs 3.46/unit was a record low in January 2017, about 17-30% lesser than the feed-in tariff prices in windy states.

The total capacity operationalised under this scheme now stands at 604.7 MW. (Representational/Reuters)

Uttar Pradesh, Bihar, Jharkhand and Assam have started receiving wind-based electricity from Mytrah Energy's 128.7 MW project in Tamil Nadu, power trader PTC India said on Wednesday.

This is the third project under the government's maiden wind energy auction for 1,050 MW, held in February 2017, to begin power supply. Mytrah Energy, along with Sembcorp Green Infra, Inox Wind, Ostro Energy and Adani Green Energy, was the winner in the auction by quoting the lowest tariff of Rs 3.64/unit.

The total capacity operationalised under this scheme now stands at 604.7 MW. When all the capacities get commissioned, Uttar Pradesh would get 449.9 MW, Bihar 200 MW, Jharkhand 200 MW, Delhi 100 MW, Assam 50 MW and Odisha 50 MW from these wind power plants.

"PTC will keep on pursuing opportunities available in the sector to further government of India's policy objectives and strive to deliver it best," said CMD Deepak Amitabh.

The tariff of Rs 3.46/unit was a record low in January 2017, about 17-30% lesser than the feed-in tariff prices in windy states.

Operationalization of 3rd Inter State Flow of Wind Power by PTC

Kolkata, Jan 30 (UNI): PTC India Limited, the leading power trading solutions provider in India, today announced operationalization of 128.7 MW Inter-State flow of wind power in the country under the MNRE Wind Scheme (Tranche-I) of 1050 MW.

MytrahVayu (Sabarmati) Pvt. Ltd. has commissioned this capacity in Tamil Nadu to supply power to beneficiary states (Uttar Pradesh, Bihar, Jharkhand, and Assam) on long term basis for 25 years, according to an emailed statement to UNI here.

Earlier, PTC had announced operationalization of two ISTS connected wind power in the country, namely Ostro Kutch Wind Pvt. Ltd. located in Gujarat and Green Infra Renewable Energy Ltd located in Tamil Nadu. The total capacity under this scheme till date is 604.7 MW.
